

BLING WET WAX™

Your car isn't just your ride—it's your bling, baby! Bling your ride with **BLING WET WAX**. **BLING WET WAX** delivers a glistening wet gloss that's so slippery you'll think your car is melting! **BLING WET WAX**'s non-abrasive blend cleans, waxes, and polishes in one step to provide a gleaming deep luster that is unmatched by any other wax product.

BLING WET WAX achieves its lustrous gloss through an advanced formulation of polymers and resins combined with a natural Brazilian Carnauba wax emulsion that produces the clearest, wettest, deepest shine and unparalleled surface gloss and reflectivity.

BLING WET WAX applies in minutes but bonds to the surface of your vehicle for months, yielding gleaming, long-lasting paint protection. **BLING WET WAX** is body armor for your car. It repels dust and shields your vehicle from bugs, tree sap, road tar, brake dust, and other natural enemies of your perfect shine. It contains UV absorbers to protect your paint from the sun's harmful rays. With **BLING WET WAX**, you can say, "Bling it on, baby!"

BLING WET WAX's exclusive no-powder formula will not smear and leaves virtually no dust or powder. **BLING WET WAX** will not stain rubber or plastic trim. It is safe for all paints and clear coats. **BLING WET WAX** provides stunning results on all automotive finishes, boats, trailers, glass, painted plastic, fiberglass, chrome. You can even use it on jewelry—bling your bling, baby!

BLING WET WAX applies and removes easily. You can apply it in the sun or shade, in hot or cool temperatures. **BLING WET WAX** even applies easily when your car is wet. **BLING WET WAX** is the wax of choice for professional athletes, rock stars, models, and movie stars. Bling is the thing, baby!

"Bling Your Ride, Baby!"™

SUGGESTED RETAIL PRICE \$19.95 / 16 FLUID OZ.

EASY DIRECTIONS

1. Car must be totally clean before waxing!
2. Shake well.
3. Apply a quarter-size drop to a slightly damp microfiber applicator or other applicator. Rub **BLING WET WAX** into a 1-2 foot area at a time.
4. On top panels, use front-to-back motions. On side panels, use up-and-down motions.
5. Allow several minutes to haze or wipe off immediately using a clean, large all-cotton or microfiber towel. Turn towel often.
6. After wax is removed, buff with a clean towel to reveal the hidden beauty, shine and bling of your ride, baby!
